Re: Small Mining Operator Application

Dear Mr. Gallegos:

Please find attached two Small Mining Operator applications to harvest rock fragments for use in constructing a rock fountain. While the total area is less than five acres, the sites are separated by more than two miles which is the reason for two applications. The reduction in the area is based on field measurements taken since our last phone conversation. If it possible to combine the sites into one permit, that would be the preferred scenario.

A copy of the application made to the BLM is also attached for your reference.

Please feel free to contact the undersigned at the above address or J. J. Wang or Diana Wells at 435-259-6869 if you have any questions regarding this submittal.

Sincerely,
Balaz & Associates, Inc.

William P. Balaz Jr.
President
